INTEGRATION ACTIONS

Adapting to regional contexts with concrete examples from REGIN pilot regions (1/4)

Catalonia Region:
extracurricular activity on
IT programming/robotics

Generalitat de Catalunya
Departament d'Igualtat i Feminismes
Secretaria d'Igualtats

Activities

Policy area identified thanks to MIPEX-R and the stakeholders' capacity building session:
access to higher education & labour market inclusion

Collaboration with the Education Ministry of the Catalan government

Enhancing education and employment prospects of children with a migrant background

→ Five extracurricular activities on skills most demanded in the current labour market, robotics and programming

→ Technical workshops and psychosocial support provided, focusing on soft skills (communication, teamwork, and self-perception)

→ Catalonia is currently evaluating this pilot action based on all the assessments made by the students, trainers, and school management.

Azores Region: welcome guide and promotion of interculturality

GOVERNO
DOS AÇORES

Activities

Policy area identified thanks to MIPEX-R and the stakeholders' capacity building session:
access to information and interculturality

→ Developing a **welcome guide for migrants, as a website and printed guide**

Enhanced collaboration between the different relevant regional departments (social affairs, health, housing...) to ensure a **harmonised approach and smooth communication** so the information provided by the region to migrants is coherent

→ **Sectoral / thematic trainings** on integration and inclusion for the different government departments through an **intercultural approach**

The screenshot shows the 'Migrant's Guide' website. The header includes the URL 'https://migrante.azores.gov.pt/en/imigrante/projeto', the logo of the Government of the Azores, and the text 'GOVERNO DOS AÇORES'. Below the header, there is a search bar, language options 'EN | PT', and a menu icon. The main content area is titled 'PROJECT' and contains the following text:

The Regional Directorate for Communities, as an executive service of the Vice-Presidency of the Regional Government of the Azores, promotes integration, interculturalism, and assistance to migrant citizens. It is in this context that the "Migrant Guide" website was created in September 2021, with the aim of providing information in an organised, systematic, and clear manner, integrating relevant information from public entities and associations that develop relevant functions with a view to the full integration of migrants. The guide is also addressed to all those who promote the integration of migrants in order to guide them and promote dialogue and the concertation of available responses.

Below the text, there is a logo for 'GUIA DO MIGRANTE' featuring a stylized globe and a person. Underneath the logo, it says 'Information provided by the Guide'. At the bottom, there is a paragraph: 'The Services section of this site provides detailed information on the different public departments and associations that work in the area of migration, with regard, among others, to regularization of permanence, job search, creation of a business, access to the regional school network, access to the regional health service and information on social benefits. Furthermore, by way of the Routemap of Services section, it is possible to identify what type of service citizens should contact in order to meet a certain need, and where it is located, with the information organized by county.'
